be a pub manager

Why choose to manage a Greene King pub?

At Greene King our managers are the heart of our business. Recruiting the very best managers and giving them the room to influence their business has been the single biggest factor in our success.

We operate our business using a strategy of flex management. This involves striking the right balance between central control and local empowerment. Flex management means getting the best of both worlds – the scale and efficiency of a large and professional organisation, and the pace, freedom and expertise of a locally run business.

The Abbot flavour

This site requires the latest version of Macromedia Flash Player.

Greene King first brewed Abbot Ale during the 1950s and its popularity has never waned. Indeed, it was recently named as one of the top 10 ales that licensees would most like to stock.

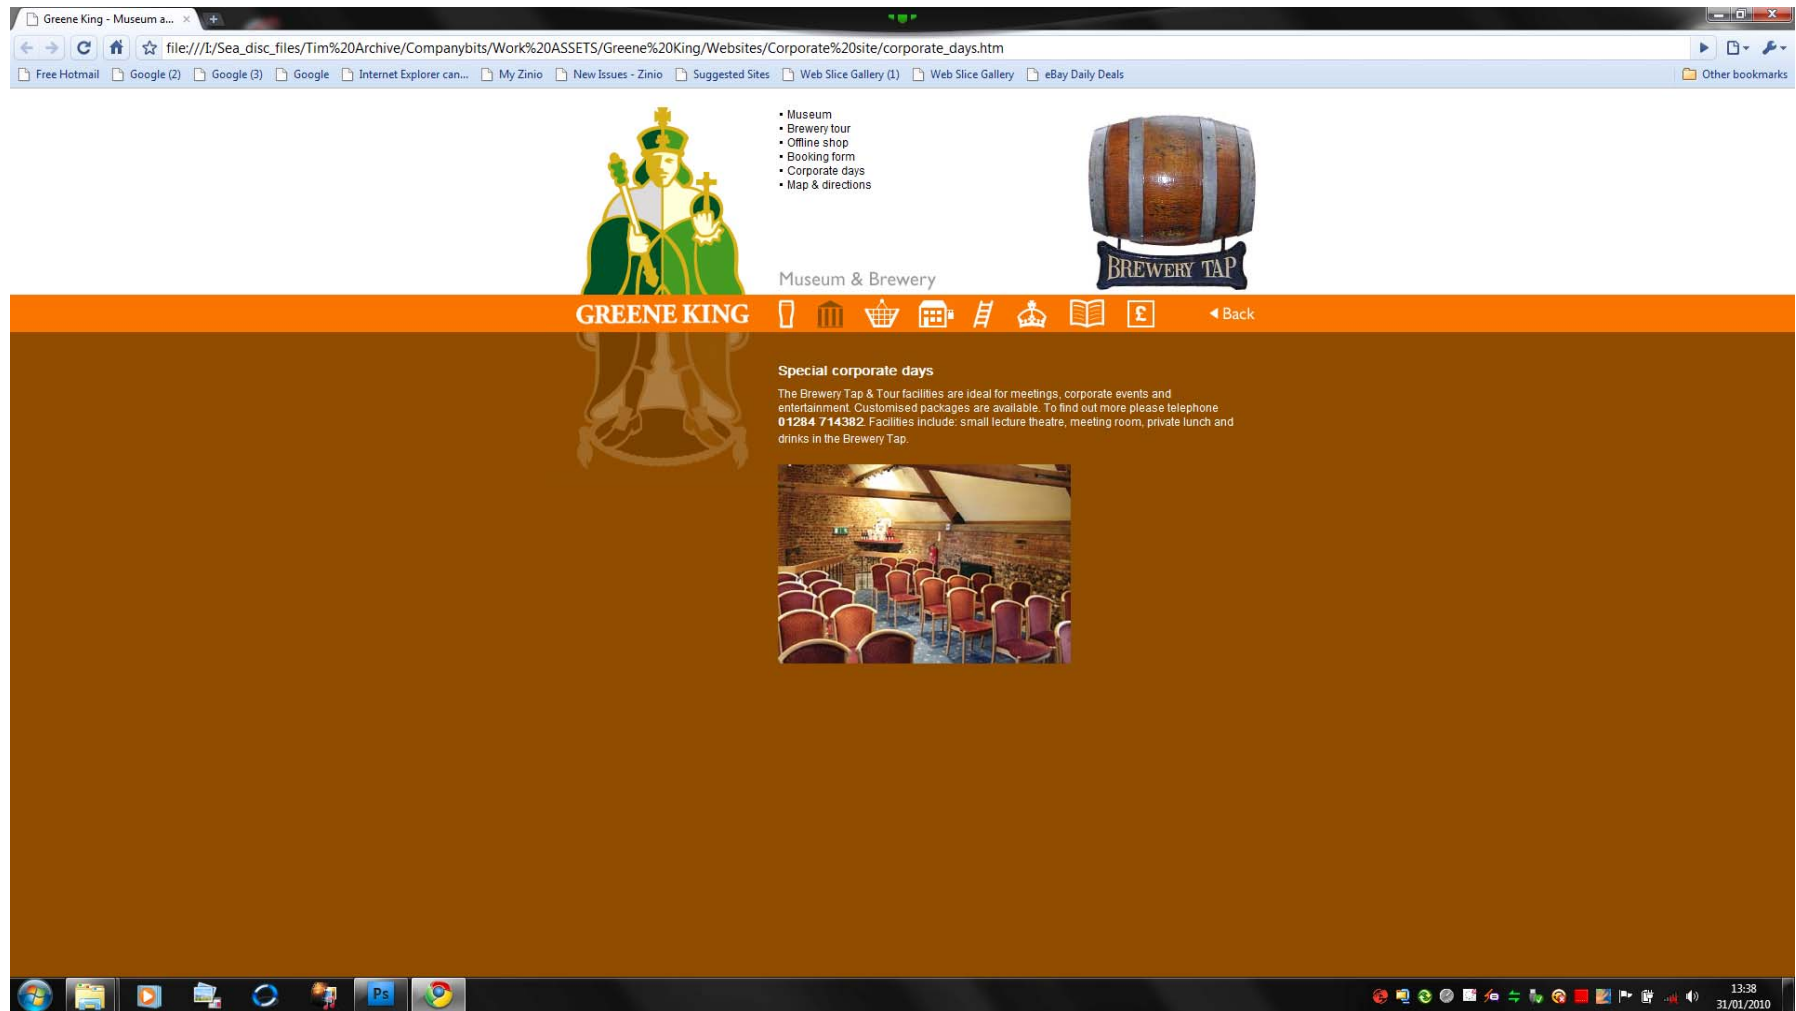

Abbot Ale is brewed longer to a unique recipe. This makes it the full, flavoured, smooth and mature beer it is today.

Abbot skittles game

This is the place to be if you fancy yourself as a true champion. This online version of the classic nine pin skittles game requires power, skill and a deft touch. Pit your wits against three fearless skittle masters, each of varying difficulty, as you strive to become the kingpin.
